Lab News

Gail Kim has been featured in Pitt's Making a Difference SDM website. She is a 4th year dental student and was a University of Pittsburgh undergraduate student who participated in our Dental Registry and DNA Repository study for over 2 years. The experience gained by the students in the project includes interacting with patients, dental students, and faculty, which provides them a life experience that can be seldom replicated in other settings. Read the whole story at [Pitt Making a Difference](#) and be sure to look for the Pitt Making a Difference billboard featuring Pitt Dental Medicine on Forbes Avenue near the Birmingham Bridge.

Upcoming Events
