

# Vieira Lab Newsletter

## Lab News

On Wednesday, August 19, 2015, the program 'Forensic Science' designed by Dr. Vieira was presented to a group of 15 high school students. They were the latest of 1,389 students that attended this class in the last 5 years. This class is taught in the Pitt Mobile Science Lab, a self-contained laboratory that allows students to use current, high-end equipment to perform laboratory investigations and is sponsored by the University of Pittsburgh Clinical and Translational Science Institute.
